## SUIT AGAINST THE TOWN.

One evening in December last Mrs. Eliza Sadlier, while walking toward the railroad track at the junction of Andover and Tewksbury streets in Ballard Vale, carelessly entered upon the crossing, and was struck by a passing train, receiving injuries from which she died a few weeks later.

A suit has been brought against the Town for this cause, and damages claimed to the amount of \$4000; we have retained counsel to defend it. We are advised that the Town is not liable, but this can only be determined by the courts. We recommend an appropriation of \$350 to carry on the suit.

We strongly urge that all bills against the Town be presented for payment within the year in which they become due.

## Overseers' Report.

---

The property of the Town in the Almshouse Department is in good condition. As is well known, our Almshouse has been for several years past under the good management of Superintendent Allen, aided by the very efficient and valuable services of his excellent wife, who has peculiar ability for the successful discharge of the complicated and oftentimes difficult duties of her position as matron.

There has been for the past year, as compared with the preceding, a small decrease in the number of the inmates, and also of the expenses of the Almshouse.

The inmates have been generally healthy, except a few of the aged who are very feeble and need constant care.

Of the younger ones, nine of the twelve under twenty years of age attend school. We repeat from a former Report the opinion that the state laws ought to be changed so as to authorize the Overseers to place children in homes and families where they can be brought up free from almshouse influences.

Several of the inmates are mildly insane, and we think it advisable to provide suitable accommodations for them, and for several others now in State Hospitals at large expense to the town.

The "tramp" nuisance has increased. Some way ought to be found to utilize the wasted energies of these wandering loafers by compelling them to work enough to compensate the town for the expense incurred on their account.

It will be noticed that the amount expended for relief out of Almshouse is in excess of that of former years. That was caused partly by an increase in the number aided, and partly by the payment of outstanding bills.

### WALNUT AVENUE.

Special Appropriation, \$300 00

We cut down the hill on this street about  $2\frac{1}{2}$  feet, graded and gravelled it the entire length, and put in a stone culvert, all at a cost of \$291.88.

### PIKE STREET EXTENSION.

A special appropriation of \$700 was made for the extension of Pike Street to Chestnut Street. We decided not to build this extension according to the plan left in our hands, but to relocate it on a different line, which has been done, and a new plan prepared for the consideration of the Town.

## MAIN STREET FOOT-BRIDGE.

A special appropriation of \$250 was made for the construction of a sidewalk foot-bridge on the westerly side of the Main Street bridge over the Shawshin River. The work was done by George S. Cole, at a cost of \$249.91.

The bridge over the Shawshin River, near H. B. Abbott's house, has been replanked, at a cost of \$148.64.

Nearly \$500 was expended in repairing the roads which were damaged by the heavy rains of last September.

By advice of citizens of the town we have expended \$300 in establishing grades of streets and procuring plans of the same.

We recommend the following amounts for the ensuing year :

|                           |           |
|---------------------------|-----------|
| For Highways and Bridges, | \$8000 00 |
| For Sidewalks,            | 1000 00   |
| For Removing Snow,        | 800 00    |

## Report of Road Commissioners on Railroad Street.

---

Railroad Street was laid out in February 1887, by R. A. Hale, civil engineer, under the direction of the Selectmen. The ground being frozen and covered with snow, he was unable to determine just how many culverts were needed, and in his estimate he only provided for one new one, of 50 feet in length, and the extension of the old one over Rogers Brook, 25 feet. We found it necessary to take out the old culvert and build a new and larger one the whole width of the street, which work was thoroughly done at an extra expense of \$100.

The angle of the other culvert was such that we had to build it 80 feet in length, instead of 50 feet, as first estimated; the 30 extra feet costing 89 cents per running foot = \$26.70.

We also built another culvert 50 feet long, costing 89 cents per running foot = \$44.50.

We have put in two Akron drain-pipe culverts, one of 10 inch 40 feet long, the other of 12 inch 59 feet long, at a cost of \$50.

And we have built a substantial face retaining wall, 25 rods in length, averaging about five feet in height, at a cost of \$150.

The engineers' estimate of the cost of the work, and the appropriation was \$2870.

The cost of the extra work not provided for in the estimate was \$371.20.

The whole amount expended on the street was \$2839.07, as shown by the following account :

# Report of the Chief Engineer

## OF THE

# Fire Department.

TO THE BOARD OF SELECTMEN :

*Gentlemen,*—In accordance with the Regulations of the Fire Department I submit the following Report.

The force of the Department consists of five Engineers, sixteen members of Andover Steamer No. 1, sixteen members of J. P. Bradlee Steamer No. 2, and ten members of B. F. Smith Hook and Ladder company.

The apparatus consists of one third-class steam fire-engine, one sixth-size Sibley steam fire-engine, one hand-engine, with hose-carriages for each; one horse hose-carriage, one hook-and-ladder truck. There are about thirty-three hundred feet of hose in good condition; the remainder, about ten hundred feet, cannot be depended upon.

There have been thirteen alarms of fire during the past year (1887), as follows :

Feb. 20. Joseph M. Bradley's store.

April 22. William C. Donald's factory.

May 11. John Stack's shed.

May 17. Washington Mills, Lawrence, to which men and Steamer No. 1 responded.

May 3, 17, 20, and 23. Woods in Frye Village.

May 23. Woods in Ballard Vale.

July 6. Walter Pettengill's barn.

July 26. Stone House.

Nov. 29. Mansion House.

Dec. 7. John Mears's house.

The past year the Department has been very much troubled in regard to horses. I recommend the purchase of three horses for use in the Fire and Street Departments.

At the last annual March meeting the Town voted twenty-five hundred dollars for a complete System of Fire Alarm. At a subsequent meeting they reduced it to five hundred dollars, and appointed the Board of Engineers a committee to have charge of the same. With that amount we have been able to connect the two Engine-houses; but we consider the system in its infancy, and hope the Town will in the near future see the necessity of completing the same.

I recommend that \$2500 be appropriated for the running expenses of the Fire Department the ensuing year.

## Report of Cemetery Committee.

---

The Cemetery Committee herewith submit their Annual Report, with statement of receipts and expenditures for the year ending Feb. 6th, 1888.

There has been a new entrance and driveway made to the receiving tomb, making it much easier of access during the winter. It was found that the basin that was intended for a pond could not be made to hold water without a large expense. It was decided to fill the basin, which has been done. The walks and avenues have been cleaned.

No wood has been sold during the past year. Three burial lots have been sold.

The face-wall should be extended, and further filling of the basin and other improvements made that may be needed to keep the premises in good order.

We therefore respectfully ask for the usual appropriation of \$300, with the proceeds of such sales as may be made from the premises during the ensuing year.
